Finley's

ELEVATING PEOPLE & PETS

In 2016, former Special Education teachers and Founders Angie & Kyle Gallus launched Finley's out of a small commissary kitchen in Minneapolis, MN. Over 80% of people living with a disability are unemployed or under-employed. Finley's mission is changing that.

Shortly into their journey, Ashton Kutcher gave Finley's a shout out on his social media. Business quickly grew from that small kitchen, local markets, and shipping our first pallet out of our home garage during a blizzard, to a

larger operation with trusted industry partners behind us. Finley's was built by our customers, for our customers and maintains our promise to deliver products that serve a greater purpose for people, pets, and the planet.

Finley's joined the KLN Family of Brands in 2022. Now a nationally distributed dog treat brand, Finley's Mission is to eliminate barriers to employment for people with disabilities in partnership with or retail partners and pet parents around the world.

HOW DO WE GIVE BACK?

**Employment
Readiness**

**Health &
Wellness**

**Community
Advocacy**

Finley's model Kelsey & her dog Hudson

Around 26% of America's population, or an estimated 61 million adults live with disabilities.

17 million dogs live in households who have a person with a disability.

Over 80% of people with disabilities are unemployed or underemployed.

**OVER 100 JOBS
CREATED SINCE 2016,
AND GROWING!**
